Music	1 x 1B5	N/A

Bring Your Own Device (BYOD) - 2022

Year 7 to 13 students will be required to bring a digital device to school to support their learning. This device can be an existing one from home or a new computer, as long as it meets the requirements below. Additional items that will need to be supplied are headphones and a bag or case that provides adequate impact protection.

Choosing a device

A wide range of digital devices are currently available, and the College has determined that **Chromebooks** or **Laptops** (Windows or Mac) are the only suitable devices for our students' BYOD needs. Tablets (Android or iPad) are not suitable. The machine supplied must meet all of these essential requirements:

- It must access WIFI
- It must run Google Apps (this is school's online email and online collaborative document suite)
- A screen 11" or larger
- A physical keyboard (not part of the touchscreen)
- A battery life that will last the school day (a minimum of 5 hours of continuous work)
- Portable

Bringing an **existing device from home is acceptable** as long as it meets the specifications described above.

Purchasing a device

If you do not have a suitable device already, most major stores will offer a range of BYOD bundles. The school cannot purchase bulk deals cheaper than what the major stores currently offer. A complete (budget) bundle can be obtained on hire purchase for just over a \$1 per day. A bundle typically comes with:

- Headphones and Mouse
- Impact protection, e.g. a laptop bag or hard case
- Extended warranties and insurance (highly recommended)

If a device is required for video or photo editing, then a laptop (Windows or Mac) is the recommended option.

The College gets regular flyers from IT companies with offers of BYOD bundles. Contact the school office (office@mackcollege.school.nz) for more details or visit stores such as Noel Leeming, Smith City or Harvey Norman and ask for their BYOD options.

For more details of College BYOD information and sample flyers open this link in a web browser: goo.gl/EFAAAA

In addition, the following link will give you some current suitable BYOD devices & accessories –
